

# PowerWrap Wide

LAMINATING WIDE SURFACES IN COMBINATION WITH WRAPPING,  
FOR EXAMPLE J-PULL HANDLES

PICTURE: PowerWrap Wide 1400S  
with UniMelt 160 and SynCut1400

---

**Continuous laminating from  
the lower to the upper edge,  
including recessed handles**

---

## YOUR ADVANTAGES

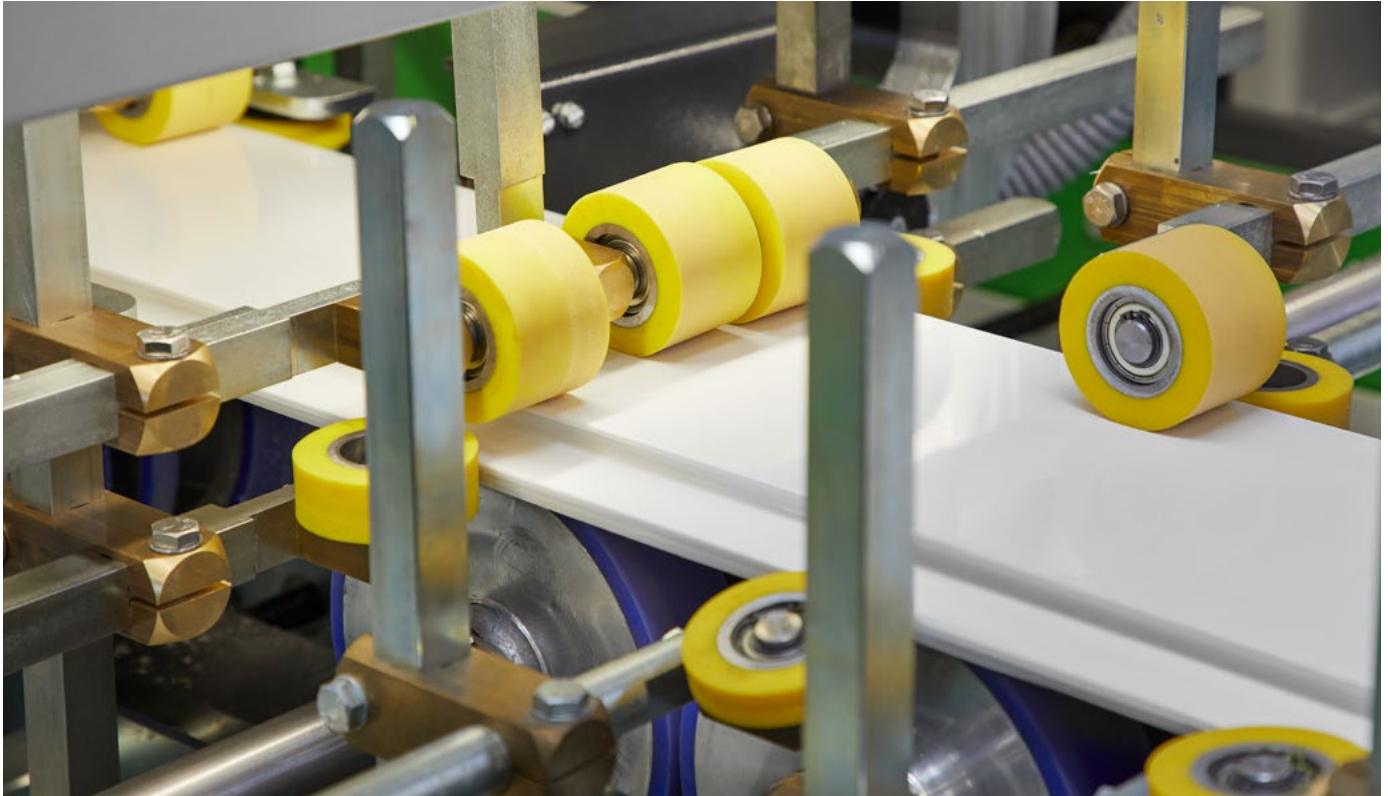

- ✓ Flexible laminating zone with three rollers for different substrates
- ✓ Also processes high glossy surface material
- ✓ Very energy efficient
- ✓ Laminating and wrapping in one line
- ✓ Automatic reel changer for continuous production
- ✓ Includes automatic separating system SynCut
- ✓ Perfect joint possible

## REASON TO INVEST

**Economic and quality  
advantages are  
realized by applying  
the adhesive directly  
to the surface material**

# PowerWrap Wide

LAMINATING WIDE SURFACES IN COMBINATION WITH WRAPPING,  
FOR EXAMPLE J-PULL HANDLES

## TECHNICAL DATA

- ✓ Working widths 700, 1000, 1400
- ✓ Profile widths 300-1400 mm (depending on material)
- ✓ Speed 5 - 40 m/min
- ✓ Double-sided laminating possible
- ✓ Melting capacity PowerMelt (EVA, PO) up to 600 kg/h, UniMelt (EVA, PUR) up to 160 kg/h

## APPLICATION

- ✓ Flat boards, doors
- ✓ Other large surfaces made from wood, wood composites or PVC
