

# RSW

REEL SLITTING AND WINDING MACHINE FOR LARGER REELS

## Solid design and automated solution for constant tension

### YOUR ADVANTAGES

- ✓ Automatic brake force regulation of unwinding stations, contact-less, diameter independent
- ✓ Consistent speed of band
- ✓ Heavy, low-vibrating steel frame
- ✓ High motor performance for ultra-tight rewinding

### APPLICATION & TECHNICAL DATA

- ✓ Cutting PVC, PP, PE, PU, sandwich foils, laminates, some textiles and metal foils
- ✓ Working widths: 1600, 2200
- ✓ Material thickness: 0,5 mm, independent of the material
- ✓ Reel width max.: 2200 mm
- ✓ Reel width min.: 100 mm
- ✓ Reel diameter max.: 700 mm

### REASON TO INVEST

**Solid machine  
for larger reels**
